

Addison Group gives microgrid energy company a jolt amid major growth

A Houston-based microgrid energy company needed talent to support them through an immense growth period.

Challenge

The client was growing exponentially and needed IT, finance, accounting, and engineering talent fast to provide scalable solutions.

Solutions

The client turned to Addison Group because of our strong, long-standing relationships with their executive team; leaders we've successfully partnered with at previous organizations. With our expert hiring teams in IT, finance, accounting, and engineering, we were the perfect talent solution for the client's hiring needs.

Addison Group quickly mobilized teams across practice areas, filling 20 key roles across the client's IT, finance, and accounting departments. Our IT and engineering division placed eight permanent professionals in IT, engineering, supply chain, and construction, while our finance and accounting division added 12 skilled candidates across multiple teams.

By securing the right talent, Addison Group helped the client hit their revenue and headcount goals in only 12 months—half the time they initially forecasted.

The Addison difference

We know that great teams start with great people.

That means we focus on quality, not quotas. It means that we're laser-focused on

seeing candidates beyond their resumes to understand their goals and make sure they align with your mission. And it means working with you to get detailed insights into your teams so we can find people who fit, not just who's available.

No one gets talent like Addison Group.®

"Addison Group helped the client hit their revenue and headcount goals in only 12 months—half the time they initially forecasted."

About Addison Group

Addison Group delivers specialized talent solutions and consulting services across finance & accounting, IT, healthcare, HR, and administrative functions. Our people-first approach helps organizations build high-performing teams, when and where they need them.
